The Western Greater Yellowstone Consortium invites interested parties to attend the 2013 Summit. The summit will share the status of this 3-year project focused on regional sustainability. Elected officials, community leaders, interested organizations and community members, and the media are invited to attend.

The Western Greater Yellowstone Consortium received a grant in 2012 from US Department of Housing and Urban Development, US Environmental Protection Agency, and US Department of Transportation. The grant's purpose is to develop a coordinated, comprehensive approach to regional sustainable development. Transportation, housing, broadband services, and recycling projects support the grant's overall intent.
